War s always dangerous
Everyone knows that

Where should I go ?
Who should I nform ?

To where ....!

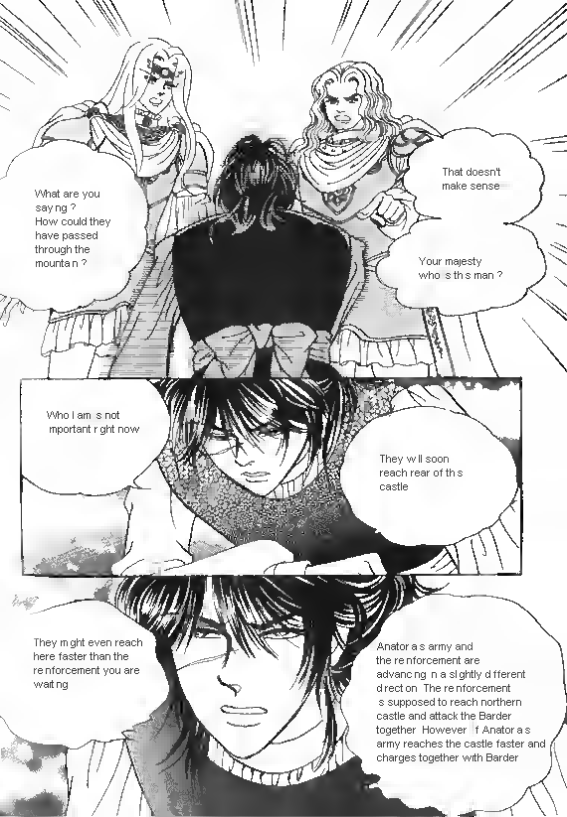
No

I don't fke th e
sensat on
I don't belong
anywhere

Light the torches !
Make sure that there is no enemy on the wall !
Looks Ike they are done for today Please rest your majesty

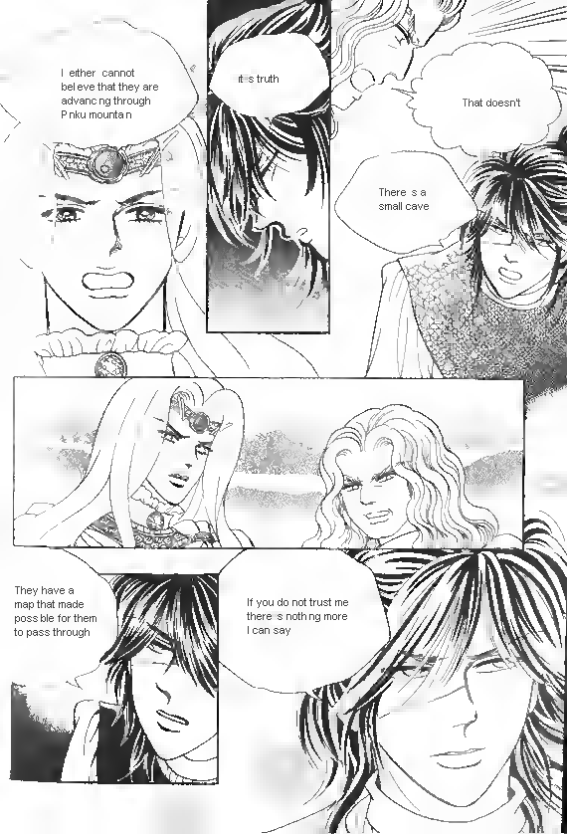
How much left until midnight ?
About three hours
Did the enemy withdraw for now ?
It seems so
Let the men rest until then
I already d d
www.janimes.com

Who s there ?
It s Se
your majesty
Why are you here?
I asked you not
to leave B
Anator a army
s advnac ng toward
th s castle through
P nku mounta n



What are you saying ? How could they have passed through the mountain ?
That doesn't make sense
Your majesty who is this man ?
Who I am is not important right now
They will soon reach rear of this castle
They might even reach here faster than the reinforcement you are waiting
Anator as army and the reinforcement are advancing in a slightly different direction The reinforcement is supposed to reach northern castle and attack the Barder together However if Anator as army reaches the castle faster and charges together with Barder

I bele ve you should change your plan a little bit
Weren't you with B ?
How d d you f nd out so much ?
I somehow found out about them
Do you ser osuly trust th s man your majesty?
He sa d that Anator a s army has advanc ng through P nku mounta n Do you bel eve h s words?
He could be a spy sent by them to confuse us



I ether cannot bel eve that they are advanc ng through P nku mounta n
th s truth
That doesn't
There s a small cave
They have a map that made poss ble for them to pass through
If you do not trust me there s noth ng more I can say

콰쾅

Closer !
Helmsman, turn !
We must withdraw from here for now.

Push them to fast current
They've lost sense of direction
There's no moonshine Night is on our side
It's only a matter of time before they hit reef
You've come to sea to fight
I will give you the glory of dying in sea
Keep firing! Don't let them reorganize!

General !
Fire is everywhere
and we cannot
get out !
I think we should
abandon our ships ...
General,
we must live today
to fight tomorrow !

www.jaimes.com

Sibel s nowhere to be found ?

The lord's escorts said they thought he was with you in your carriage .

He seems to like playing alone He may have fallen asleep pretty much anywhere.

They d d search every poss ble places He was nowhere to be found
Spare us m lady
Fools !
Where could he have poss bly gone to ?
D d he ?

I trust Se s words lord Va da
Therefore I am go ng to change the plan
Isn't th s too r sky?
I bel eve sitt ng here and do ng noth ng w ll be much more r sky

We must not wait until midnight
We must attack the Barder right now
If so we must inform Naru about the change of the plan
It will not be easy to locate his army in this darkness on time
I would like you to do this
Will you accept my order ?
Your majesty
Naru will not trust his words

I will go with him
If Se chooses to go
No it's too dangerous!
Se
What about B?

I am very sorry
But I w ll stay
with B
How dare you d sobey
the k ng

I am not ordering him
I was asking him whether he'd like to take my order or not.
How dare you !
The king has lowered himself this much Yet, you still refuse !

... I will
return to Bi
How dare you !
Do you think you will get out of here alive after refusing to take the majesty's order ?
Stop lord Vada !
I am not a citizen of Ramra
And I do not serve king Byon

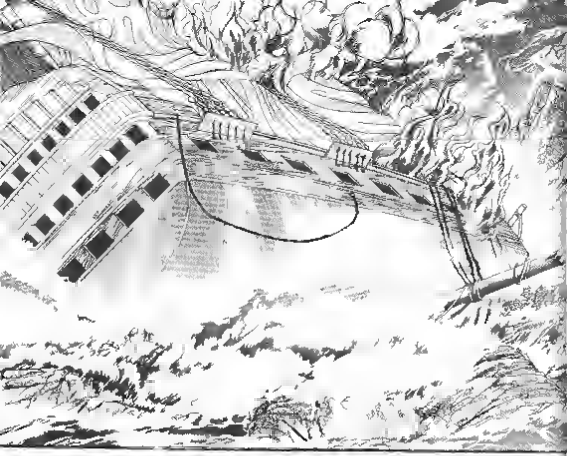
Even f you ask
even..f you order
If I refuse it means nothng
You !
I will have your head
Your majesty
Allow me to cut his head
Bl s

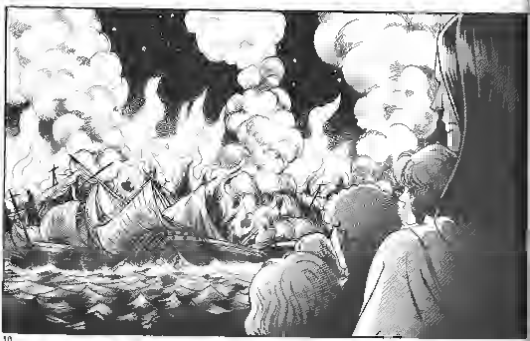
My w fe
Her safety s more mportant than anyth ng
However f she was n my post on
She would have done the same as me
I am begg ng you Se

What have I been
f ghting for
If I cannot protect
ones I love
What mean ngs
w ll my l fe have

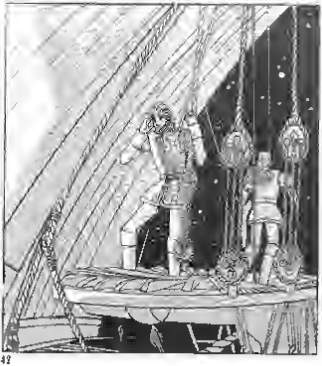
Send the chief guard to B instead
No, no, sir !
Leo must serve the king!
Send Leo to her lord Vada
Sir !
Leonardo Vada wasn't it ?
You should consider yourself luck to be alive even after you draw your sword at me

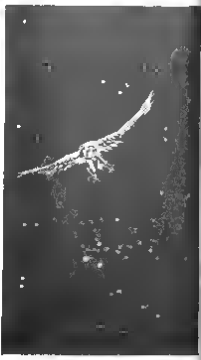
You !
You __ you __ !
I swear I will kill you with my own hands !
The top pr ority would be to surv ve th s war
If you ever draw your sword at me agan I w ll not show mercy either
Stop both of you !
We cannot waste much time We must make a new plan





General where to ?
To north
Let s get out of here
Peddle to north
Galron You were great
You had only 25 shps and defeated a fleet of 60
Let s say I ve pad my respect to you tonght
But, next time, I will not lose to you.





Your majesty !
General Baran's bird has arrived !
But it has no messages and has burnt feathers
I believe something terrible has happened to his fleet
I don't believe the bird was sent to send a message I think the bird was released to go
His ship was under fire ?

This means the hawk I sent with a message saying that I've departed will not return
Send a message to Haiga.
Tell him to withdraw and join me
What if Skador attacks us ?
Our problem right now is not Skador but Galron
Unless they are complete idiots they won't dare to attack right away
Galron the sea fox I guess he has earned the nick name rightfully

Did you know that he is a good friend of general Vada ?
Yes I heard I also heard that they used to fight together when they were young and according to some stories
After Korshika's daughter was sent to Ramra to become the queen the king of Korshita also sent Galron to Ramra to learn the sea
They also sent their own mercenaries all over the word and turned them into war veterans
Yes after all these years.. his fleet no longer belongs to Korshita it is more like a small empire of his
Well the king Biyon would support him with finances
If Baran lost that means he is much better than we expected

I would like to ask you something.
You are an Anator an Why are you s d ng with Ram ra?
How

I just had a feel ng that you were
If I have to

That s all I can tell you for now
Because your name s Se ?
If I pull the rope once c mb
If I pull the rope tw ce qu ckly stop
Does your name have some mean ng ?
Te th s on your wa st

Not really

It s such a mus cal name
Before I met Olv a

It was the f rst time that my name could be called softly

I am an Anator an
My father s that k ng Tor r ght ?

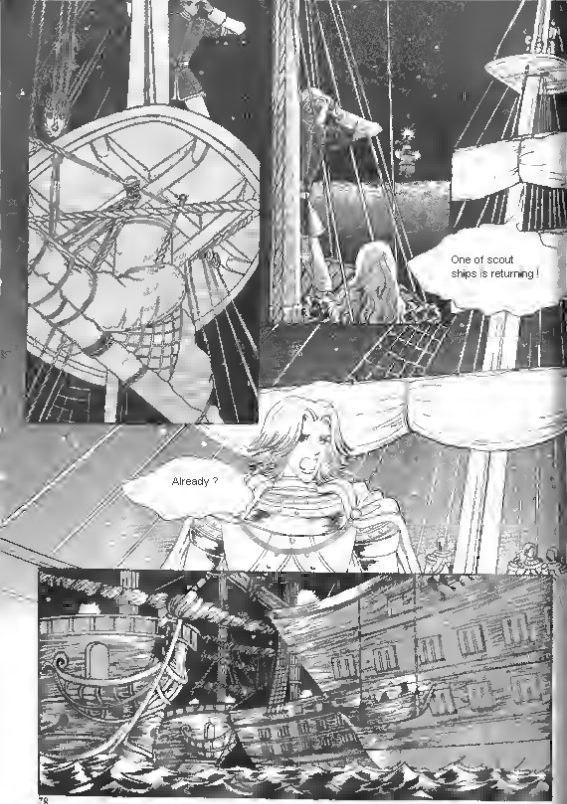
And to obta n powers I want I must know what war s really about
That s why I came
S bel

We cannot wait until midnight We must act now.
They w ll attack us from both s des once they establ sh a connect on
If they do attack us from both s des
We won't stand much chance s nce we w ll be outnumbered too greatly

We may have a chance
But f we attack the Barder f rst and then attack Anator a s army with elemental of surpr se.
To do th s we must locate
ther messengers
I know what route they w ll send ther messengers to
www.jaimes.com

How ?!
I will tell you everything later.
I will block their route and kill every messenger they send.
You can count on me.
Majesty ! Who is this man ?!
How would he know , unless he's a spy ?

He's
my friend
I am
counting on you



One of scout ships is returning !
Already ?

Baran ?
I am very sorry, your majesty
This has to be a m'racle. I'nd'ng you n m'ddle of sea n th's darkness
We were trac ng back stars
We spotted a scout sh p and used flint to send a s gnal
I am awfully ashamed that I escaped
Please g ve me one more chance
I was go ng to end my l fe with my sh p but I couldn't just d e after los ng so m serably

How did you lose to 25 ships ?
My men were foot soldiers
Indeed.
Your objective was to reach Ramira as fast as you can and fight on land.

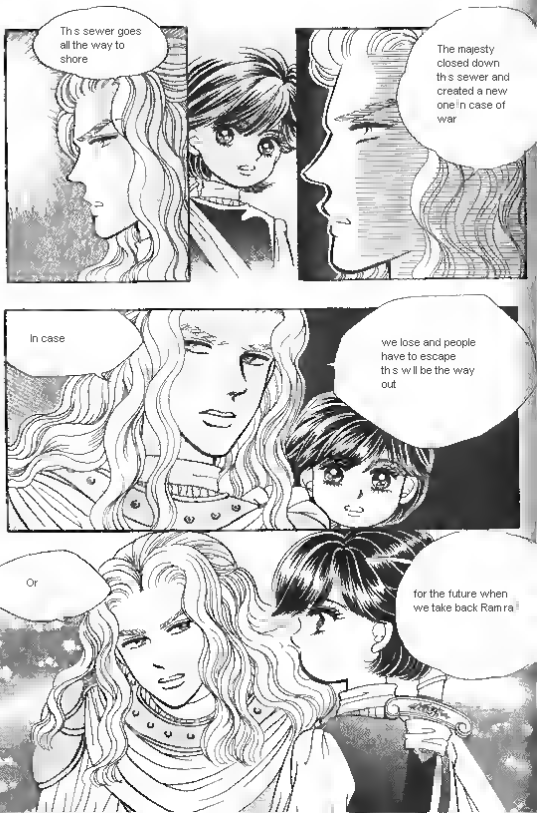
Galron knew so much about sea than us
And ...
You have too many men on each ship
We managed to get our hands on Ramira's battleship blueprint.
And we constructed ships that are exactly the same as Ramiras
And we thought we could take on Ramiras naval force head on since we outnumber them greatly

You had 60 ships and they had 25 ships.
You didn't think they'd ambush you.
That was your critical mistake, Baran!
A ship can only have a certain amount of men peddling
The less men they have aboard, the faster they can move
It seems that is why Galron always keep his men low-numbered. We didn't realize his tactics.
We trusted our numbers.
I have no excuses

Galron and his men have decades of sea experience.
And Galron knows where he is by just looking at sea surface. We are talking of the sea where countless men were perished trying to pass.
We underest mated h m too much
Ram ra has had Galron prepar ng for someth ng l ke th s decades ago
Perhaps Ram ra s also not to be underestimated

As soon as Haga jons us
We will
go around Galron !

www.animes.com



Th s sewer goes all the way to shore
The majesty closed down th s sewer and created a new one in case of war
In case
we lose and people have to escape th s w ll be the way out
Or
for the future when we take back Ram ra

Will you remember th s passage ?
Yes

After meal let the men have some nap
Yes s r
We need to be n full energy for our upcom ng battle

That is a large army !
Snce it began there w ll be much much more
Anator a s populat on can't even be compared to Ramra s
How much longer w ll Ramra be able to sustan
With what w ll they be able to defend themselves

Again...

Will I have to see people I care d/e because of love

I was too young to stop Ol v a s death

Do I have to lose the s m lar sm le agan

Will I lose Bi agan

www.janines.com

So
you want me to
send S'bel back
to Anator a

He is nearly seven years old isn't he ?
He is just a child He doesn't know anything
Why would I do that ?
Someone I know learned how to use a sword while he learned to work
But
If Sibel wants to see war then I am going to let him
Someone I know grew up in battlefields Now he has become the best swordsman in this world
If Sibel has such a talent I am not going to stop it from growing

And you better observe this war, too
I am going to make you pregnant during this war
So, give me a boy
Who will be good in battlefields !
Let go of me !

I need a son
who will surpass

It is really none of your business
I want this war to end here
Even if you kill my father it won't change much
Skade Tor will keep taking his chances to invade Ramra Maybe he is on his way right now
Even if Bill is important to you I don't think you are going to betray Skade since you are an Anatorian

The more I hear you, the more I feel that I must kill you.
Stop father
Even if we both attack him we will only end up dead
What? My swordsmanship may not be the best, but it's not the worst either
Besides the way I see you aren't bad at all We could easily kill him
He has throwing knives and his skill is unmatched

I don't see any throwing knives on him !
Shall we bet pr me m n ster?
Besides, this is a narrow passageway I bet he can't even a m well
There is no need for that
I know how good you are
But, if you ins st on k ll ng my father I w ll f ght you to death

I am sure you have

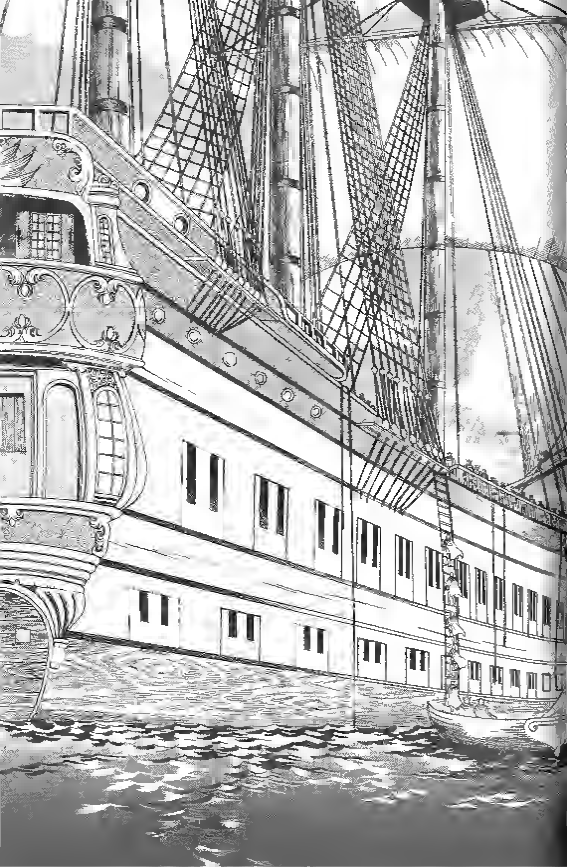
I suppose she 's your weakness huh ?
My Hezel



Welcome back, Haiga.

We are too outnumbered to fight properly.

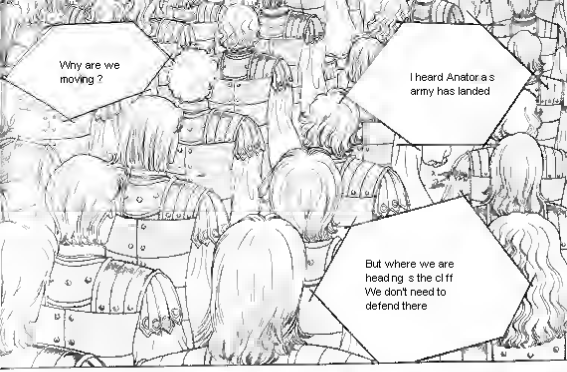
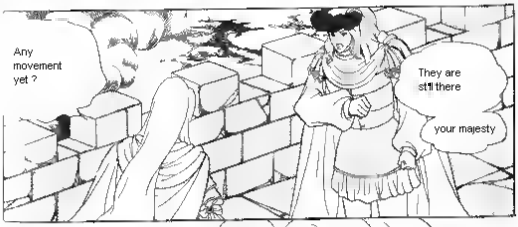
Send the hawk to Ramra

The corpses have been burning for days. The smell is awful.
Nothing we can do about it. There are simply too many.
Move quickly !



Why are we moving ?
I heard Anator a s army has landed
But where we are head ng s the cl ff We don't need to defend there



Any movement yet ?
They are st'll there your majesty

Wh ch path w ll they choose to attack
And just how deta led map do they have
www.janimes.com

Anatoria's main resource is men.
They earn most of their income as mercenaries.
They are war veterans.
Ramra has never experienced war How much longer will Ramra be able to hold
Even with the mercenaries that I've been secretly training it's too much And Skador does not value their words
Ramra lacks too much in this war!

You must have sent weak messengers. You should have sent skilled ones for such an important task.
I did send skilled ones
I chose ones who wouldn't be killed so easily
Don't tell me it was that guy s Se dong ?
Se ?
Are you talking about Se Ren ?

I don't know his full name.
Eshild, didn't you say his name was Sei ?
I call him Sei. That's all I know about him.
Black hair and a big scar across his face ?
Do you know him ?
He is watching this camp right now ?
I am not sure if he is still watching.
Who is he ? Is he capable of such a work ?
Not many know him personally
Many only know him by rumors
All I know for sure is that he is the best mercenary captain and king Tor's right hand man

Anatoria's best mercenary captain....!
Skade Tor s r ght hand man
Why s he here alone n Ramra ?
And why s he protecting B. wth h s l fe ?
Why ?!

I agree.
We must not
